

# ROOFING RIPOFF

Why Your Asphalt Shingles  
are Falling Apart and What  
You Can Do About It

Tim Carter

# ROOFING RIPOFF

Tim Carter's newer asphalt shingle roof failed long before it should. Is your shingle roof in bad shape too? Will you have to spend thousands of dollars soon to put on a new shingle roof? Carter, founder of AsktheBuilder.com, decided to ask his 51,000-plus newsletter subscribers if they had problems too.

He was flooded with stories from people just like you from all across the USA. Tim decided to find out why shingles were failing long before they should. The top shingle manufacturers, and the association that represents them, failed to produce the answers Tim needed. He decided to investigate and what he discovered will shock and anger you.

The good news is that while writing this book, Tim discovered a simple way to extend the life of your roof shingles by decades. Open the pages of Roofing Ripoff now and allow Tim to take you on a journey uncovering the deep secrets of why your shingles, and money, are headed to the landfill.

*Tim Carter writes the nationally syndicated newspaper column Ask the Builder that appears in over 60 papers in the USA. He's an award-winning remodeler and builder and founder of **AsktheBuilder.com** and is one of a small number of home improvement media people that has decades of hands-on experience working in, and on top of, houses of paying customers just like you.*
